<b>Advisory Action</b> <b>Before the Filing of an Appeal Brief</b>	Application No. 10/655,717	Applicant(s) ZHOU, PEIGUANG	
	Examiner Kevin R. Kruer	Art Unit 1773	

**--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

THE REPLY FILED 14 August 2006 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1. ☐ The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

- a) ☒ The period for reply expires 3 months from the mailing date of the final rejection.  
b) ☐ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### NOTICE OF APPEAL

2. ☐ The Notice of Appeal was filed on \_\_\_\_\_. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

#### AMENDMENTS

3. ☐ The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because  
(a) ☐ They raise new issues that would require further consideration and/or search (see NOTE below);  
(b) ☐ They raise the issue of new matter (see NOTE below);  
(c) ☐ They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or  
(d) ☐ They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: \_\_\_\_\_. (See 37 CFR 1.116 and 41.33(a)).

4. ☐ The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).  
5. ☐ Applicant's reply has overcome the following rejection(s): \_\_\_\_\_.  
6. ☐ Newly proposed or amended claim(s) \_\_\_\_\_ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).  
7. ☐ For purposes of appeal, the proposed amendment(s): a) ☐ will not be entered, or b) ☐ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.  
The status of the claim(s) is (or will be) as follows:  
Claim(s) allowed: \_\_\_\_\_.  
Claim(s) objected to: \_\_\_\_\_.  
Claim(s) rejected: \_\_\_\_\_.  
Claim(s) withdrawn from consideration: \_\_\_\_\_.

#### AFFIDAVIT OR OTHER EVIDENCE

8. ☐ The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).  
9. ☐ The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).  
10. ☐ The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

#### REQUEST FOR RECONSIDERATION/OTHER

11. ☒ The request for reconsideration has been considered but does NOT place the application in condition for allowance because: see attached.  
12. ☐ Note the attached Information Disclosure Statement(s). (PTO/SB/08 or PTO-1449) Paper No(s). \_\_\_\_\_.  
13. ☐ Other: \_\_\_\_\_.

***Advisory Action***

Applicant's arguments filed August 14, 2006 have been fully considered but are not persuasive.

Applicant argues the examiner's rejection is based upon improper hindsight wherein the claims have been used as a starting point or "recipe" which teaches the invention and the examiner worked backwards in time to find the ingredients of the recipe in different prior art references. The examiner respectfully disagrees. Zhou is applicant's own prior work and, as such, is very similar with respect to the adhesive composition utilized and the field of endeavor. In the present application, a third component has been added to the adhesive composition taught in Zhou. The central question with respect to patentability is whether or not the prior art as a whole would have motivated the skilled artisan to add the elastomeric base polymer to the composition. The examiner maintains the position that Lakshmann clearly contains said motivation for the reasons stated on record.

Applicant further argues Zhou does not teach the adhesive is stretchable. The examiner notes that the skilled artisan would have expected the addition of an elastomeric material to the claimed composition to improve the composition's elastomeric properties. Furthermore, Lakshmann teaches the skilled artisans would have expected an increase in the peel strength of the composition as a result of the addition of the elastomer taught therein.

Applicant further argues that Zhou's distinguishing feature is its relative simplicity resulting from the requirement of only two ingredients instead of several. Said

Art Unit: 1773

argument is noted but does not demonstrate a lack of prima facie showing. Specifically, there is nothing in Zhou which suggests that the addition of a third component to the composition destroys the invention taught in Zhou.

Applicant further argues a tackifier is an essential ingredient of the composition taught in Lakshmanan. Said argument is noted, but tackifiers are not excluded from the presently claimed composition. Thus, said argument fails to render the claims non-obvious. Applicant argues the skilled artisan would have been dissuaded from adding the tackifier to the composition taught in Zhou because Zhou discourages the use of ingredients other than atactic and isotactic polymer. The examiner respectfully disagrees with applicant's reading of the reference. Zhou teaches tackifier may be added to the composition (page 23, lines 8+).

For the reasons noted above, the rejections are maintained.
